

Superior Air Parts, Inc.

INTER-OFFICE MEMO

TO: Quality Control file

DATE: 07/22/91

FROM: Lee Briers

SUBJECT: Standard parts

- 1) Under the provisions of FAA Code of Federal Regulations FAR "Sub-part K - Approval of Materials, Parts, Processes, & Appliances", 21.303 'Replacement of Modification Parts' para. (a)(4), "standard parts (such as bolts and nuts) conforming to established industry or U.S. specifications" are not required to comply with FAA PMA provisions. (See attachment).
- 2) Parts classified as "standard parts" shall be Quality Control inspected and may be identified with the Superior prefix (i.e. SA, SL, PO, etc.), providing these parts and their containers are not identified as FAA-PMA.
- 3) SA532364-50.0 has been classified as a "standard part" by Superior Quality Control and Engineering and will be processed accordingly.

A handwritten signature in blue ink, appearing to read "Lee Briers", is written in a cursive style.

Lee Briers
Quality Control Manager
