Date: 7/28/2010

Subject: Superseded Main and Connecting Rod Bearings

Application: All Lycoming model engines.

Compliance: Whenever new bearings are installed.

Superior Air Parts has upgraded its main and connecting rod PMA replacement bearings for Lycoming engines (Ref. Lycoming Service Instruction No. 1512. Main and Connecting Rod Bearing Upgrade). The table below lists the superseded and upgraded bearing part numbers. The upgraded bearings are identified by an "A" suffix on the part number. The one exception is main bearing P/N SL11020 which has always been supplied by Superior in the upgraded configuration. Superior Air Parts requires the use of these upgraded bearings whenever new bearings are installed.

Table of Superseded and Upgraded Bearings

Superseded Bearing Part Number Including Undersized M03, M06, M10	Description	Upgraded Bearing Part Number Including Undersized M03, M06, M10
SL11021	Main Bearing	SL11020
SL11575	Main Bearing	SL11575A
SL13212	Rod Bearing	SL13212A
SL13521	Rod Bearing	SL13521A
SL13884	Main Bearing	SL13884A
SL13885	Main Bearing	SL13885A
SL14105	Main Bearing	SL14105A
SL61662	Rod Bearing	SL61662A
SL68763	Main Bearing	SL68763A
SL74309	Rod Bearing	SL74309A
